[Docket No. A-1339]

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 4

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both tempo-

rary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 4; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows:

Commencing forthwith, § 324.7 (Alphabetical list of code members) is amended by adding thereto Supplement R-I, § 324.8 (Numerical list of mines) is amended by adding thereto Supplement R-II, § 324.2 (Seasonal discounts) is amended by adding thereto Supplement R-III, § 324.9 (Recapitulation of price classifications) is amended by adding thereto Supplement R-IV, § 324.11 (Special prices—(a) Railroad fuel prices for all movements exclusive of lake cargo railroad fuel) is amended by adding thereto Supplement R-V, and § 324.24 (General prices in cents per net ton for shipments into all market areas) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

The petition requests revision of the minimum prices established for the coals of the Chaplow Mine (Mine Index No. 1371), on the ground that although previously classified as a deep mine, it is, in fact, a strip mine. It appears that on the same property there are both deep (Mine Index No. 1371) and strip (Mine Index No. 2269) mine operations, known as the Chaplow Mine. Accordingly, it appears that the price classifications and minimum prices established in General Docket No. 15-A for the coals of Mine Index No. 2269, a strip mine, for truck shipment, should be revised, as requested in the petition.

It further appears from the petition that the coals of the Danielson Mine (Mine Index No. 588) of Danielson Bros. Coal Company were improperly priced in General Docket No. 15 and that minimum prices therefor should be revised because the Danielson Mine is in Subdistrict No. 6 and not in Subdistrict No. 1.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: April 18, 1942.

[Docket No. A-1373]

PART 324—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 4

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 4

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifica-

tions and minimum prices for the coals of certain mines in District No. 4; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 324.7 (Alphabetical list of code members) is amended by adding thereto Supplement R-I,

§ 324.8 (Numerical list of mines) is amended by adding thereto Supplement R-II, § 324.2 (Seasonal discounts) is amended by adding thereto Supplement R-III, § 324.9 (Recapitulation of price classifications) is amended by adding thereto Supplement R-IV, § 324.11 (Special prices—(a) Railroad fuel prices for all movements exclusive of lake cargo railroad fuel) is amended by adding thereto Supplement R-V, and § 324.24 (General prices in cents per net ton for shipment into all market areas) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

The petition proposed a minimum price of \$3.05 for truck shipment of the Size Group 3 coals of the S & H mine (Mine Index No. 374) of Stahl and Head. It appears that \$3.15 is the minimum price applicable to analogous Size Group 3 coals of other mines in Wayne County, for truck shipment, and that the petition fails to make any showing as to the necessity for the establishment for the coals in Size Group 3 produced at Mine Index No. 374 of a minimum price lower than that established for analogous coals. Accordingly, it appears that a minimum price of \$3.15 is proper and should be established for the Size Group 3 coals of Mine Index No. 374 of Stahl and Head, for truck shipments.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: April 21, 1942.

Acting Director.

[Regulation No. I]

PART 4—ENLISTMENT IN WORK CORPS

Pursuant to the provisions of section 7 of Executive Order No. 9102 of March 18, 1942, which reads as follows:

There is established within the War Relocation Authority the War Relocation Work Corps. The Director shall provide, by general regulations, for the enlistment in such Corps, for the duration of the present war, of persons removed under this order or under Executive Order No. 9066 of February 19, 1942, and shall prescribe the terms and conditions of the work to be performed by such Corps, and the compensation to be paid.

the Director of the War Relocation Authority hereby prescribes the following regulations to govern enlistments in the War Relocation Work Corps:

Sec.

- 4.1 Applicability of regulations.
- 4.2 Voluntary enlistments.
- 4.3 Assignment of enlistees to projects.
- 4.4 Time and place of enlistment.
- 4.5 Eligibility for enlistment.
- 4.6 Procedure for enlistment.
- 4.7 Duration of enlistment.
- 4.8 Wages, allowances, and benefits.

AUTHORITY: §§ 4.1 through 4.8 inclusive, issued under Executive Order 9102, 7 F.R. 2165.

§ 4.1 *Applicability of regulations.* The regulations in this part will apply to all enlistments in the War Relocation Work Corps.

§ 4.2 *Voluntary enlistments.* All enlistments in the Work Corps will be on a wholly voluntary basis.

§ 4.3 *Assignment of enlistees to projects.* All enlistments will be made without special applicability to any project or relocation center of the War Relocation Authority. Assignments of enlistees to projects or centers may be changed from time to time.

§ 4.4 *Place of enlistment.* Enlistments will be made either at assembly centers or at relocation centers.

§ 4.5 *Eligibility for enlistment.* All able-bodied persons, both male and female, above the age of sixteen years, who are residents or who are eligible for residence on a War Relocation Authority project or relocation center are eligible for enlistment. Citizenship of the United States will not be a prerequisite for enlistment.

§ 4.6 *Procedure for enlistment.* (a) Enlistment in the Work Corps will be made and accepted only on Form WRA 1. The Regional Director of the War Relocation Authority or other enlisting official is not authorized to make any changes, either by addition or subtraction, in Form WRA 1, except upon specific authorization of the Director of the War Relocation Authority. The enlistee will execute duplicate copies of the form, the original of which will be retained in the files of the War Relocation Authority, and the duplicate will be given to the enlistee.

(b) The enlistee will sign Form WRA 1 and take the oath set forth on the form in the presence of a notary public or other person authorized to administer the oath.

(c) The enlistee will place the print of his right index finger in the place provided on the form for that purpose.

(d) Where the enlistee cannot read and write English, a translator will be provided by the War Relocation Authority. The translator will read the entire contents of Form WRA 1, including the oath contained in it, to the enlistee. The enlistee will take the oath in the language he habitually uses in the presence and hearing of the translator and of the person authorized to administer the oath. The translator will satisfy himself that the contents of the form and the oath are understood by the enlistee. The translator will sign his name and take the oath contained in the form for his use in the presence of the enlistee and a person authorized to administer the oath.

(e) No charge will be made for administering the oath or for performing the services of a translator.

(f) The Regional Director, whether or not he is a notary public, is hereby authorized to administer the oaths provided for in these regulations. He is further authorized to delegate in writing to any War Relocation Authority employee or any Federal employee cooperating with the War Relocation Authority the authority to administer such oaths.

(g) Enlistment Forms WRA 1 will be numbered consecutively. The duplicate and original form for each enlistee will bear the same number.

(h) The Director of the War Relocation Authority may, in his discretion, in the public interest, waive any imperfections or irregularities in the execution of enlistment agreements.

§ 4.7 *Duration of enlistment.* Enlistment will be for the duration of the present war and fourteen days after its termination, unless an earlier discharge is issued by the Director of the War Relocation Authority. Enlistments for a shorter time will not be accepted.

§ 4.8 *Wages, allowances, and benefits.* The enlistees will be entitled to receive as compensation such wages, allowances, and other benefits as may be due, under the regulations of the War Relocation Authority, under the classifications which may from time to time be assigned to them respectively. They will not be entitled to any payments or allowances upon discharge from the War Relocation Work Corps other than those which stand to their respective personal accounts on such date.

PART 997—PRODUCTION AND DELIVERY OF MACHINE TOOLS

GENERAL PREFERENCE ORDER E-1-b

§ 997.2 *General Preference Order E-1-b—(a) Definitions.* (1) "Machine tools" include the products listed in schedule hereto attached and marked "Exhibit A"¹ and divided into two groups designated Group I and Group II for the purpose of this Order as hereinafter specified. The term "tool" means a machine tool. Each machine tool includes not only the basic machine but also all fixtures, equipment and tooling covered by the original purchase order which are required to be delivered with the tool to make it usable in production for the purposes intended, but does not include any replacements, or spare parts or equipment, or extra tooling, ordered by the purchaser.

(2) "Producer" means any individual, partnership, association, corporation, or other form of enterprise engaged in producing any products listed in Exhibit A.

(3) "Service purchasers" means those whose Preference Rating Certificates, or whose endorsed purchase orders, show that the preference rating applied to such delivery was assigned thereto by an original Preference Rating Certificate PD-3, PD-3A, or PD-4, or by Preference Rating Order P-19-b, calling for delivery to a Supply Arm or Bureau of the Army or Navy, or to the United States Maritime Commission, or to one of their prime contractors, or to a subcontractor of such a prime contractor.

(4) "Foreign purchasers" means those whose purchase orders show that the tool is to be delivered to or for the account of a foreign country (other than Canada), or a subdivision, agency, or instrumentality thereof: *Provided*, That such purchase orders have been placed by the Ordnance Department (Army) or by the Procurement Division of the Treasury Department, with or without a Preference Rating Certificate; or, in the case of purchase orders placed prior to the effective date of this Order, by a purchasing or procurement agent of a foreign country, where such purchase orders have been scheduled pursuant to a Preference

¹ Not filed as part of the original document.

Rating Certificate, a Special Allocation Order No. 1, or General Preference Order No. E-3.

(5) "Other purchasers" means all purchasers other than service purchasers and foreign purchasers, to whose purchase orders a preference rating has been assigned, including Canadian.

(6) "Class" when used herein means one of the foregoing three classes of purchasers: namely, service purchasers, foreign purchasers, or other purchasers.

(7) "Size" as used herein may include all of those dimensions or variations of a particular type of tool which can be used interchangeably for production purposes.

(b) *Revocation of previous Order.* General Preference Order No. E-1-a, Revised, including the Numerical Master Preference List, Revision No. 1, is revoked as of the effective date of this Order, as to machine tools, and shall thereafter be of no further force or effect with respect to machine tools except as present schedules and Urgency Standings are continued by paragraph (c) of this section. Makers of gages and chucks will continue to schedule their production according to General Preference Order No. E-1-a, Revised, until further order of the Director of Industry Operations.

(c) *Periods for continuance of present schedules.* Present schedules of production and delivery and present urgency standings of those machine tools designated as Group I on Exhibit A shall be maintained as they now stand until June 1, 1942. Present schedules and urgency standings of those machine tools designated as Group II on Exhibit A shall be maintained as they now stand until July 1, 1942. After those respective dates, every producer shall schedule his production and delivery of machine tools according to the provisions of this Order.

(d) *Allocation of production to service purchasers and to foreign and other purchasers.* (1) Except as provided in subparagraphs (3) and (4) of this paragraph, each producer shall schedule his production for each calendar month so as to deliver 75 per cent of his production of each size of each type of tool which he produces in that month to service purchasers.

(2) Except as provided in subparagraphs (3) and (4) of this paragraph, each producer shall schedule his production for each month so as to deliver 25 per cent of his production of each size of each type of tool in the aggregate to foreign purchasers and other purchasers.

(3) A producer may schedule for delivery to service purchasers more than 75 per cent of his production of any size of a type of tool in a given month, to the extent that he has failed to receive purchase orders for foreign purchasers and rated purchase orders from other purchasers for tools of such size and type prior to the first day of the fourth month preceding the month of delivery.

(4) A producer may likewise schedule for delivery to foreign purchasers and other purchasers more than 25 per cent of such production of any size of a type of tool in a given month, to the extent

that he has failed to receive rated purchase orders from service purchasers for tools of such size and type, prior to the first day of the fourth month preceding the month of delivery.

(5) In preparing his schedules as aforesaid, a producer shall fix the dates of his deliveries of tools to service purchasers, to foreign purchasers and to other purchasers within a given month so that each class will receive its percentage of tools equitably in point of time within the month.

(e) *Distribution of 75 per cent of production among service purchasers.* (1) Service purchasers are hereby subdivided into six groups consisting of the following, and their respective prime contractors and subcontractors: Bureau of Ships (Navy), Bureau of Ordnance (Navy), Ordnance Department (Army), Air Services, Miscellaneous Bureaus and Branches, and the Maritime Commission. The fourth group, designated "Air Services", includes the Army Air Forces and the Navy Bureau of Aeronautics and their respective prime contractors and subcontractors. The fifth group, designated "Miscellaneous Bureaus and Branches", includes the Quartermaster Corps, the Corps of Engineers, the Medical Corps, the Chemical Warfare Service, the Signal Corps, the Bureau of Yards and Docks, and the Marine Corps, and their respective prime contractors and subcontractors.

(2) Exhibit A specifies a percentage of each type of tool which is to be delivered each month to each different group of service purchasers. The aggregate of such percentages is 75 per cent.

(3) The stated percentage for each group, where applied to a producer's production of each size of a given type of tool in a specified month, establishes the "quota" for that group of that size and type during that month.

(4) During each calendar month, each producer shall deliver to each group of service purchasers the number of tools of each size of a given type which equals the quota of the group for that size and type.

(5) If a producer does not have on hand on the first day of the fourth month preceding the month of delivery, rated purchase orders from any particular group of service purchasers equal to that group's quota of a size of a given type of tool for that month, the producer shall schedule purchase orders received from members of other groups of service purchasers for that size and type for delivery during that month. Where members of two or more other groups have placed purchase orders aggregating more than such unordered balance of the first group's quota, the producer must schedule such purchase orders in accordance with the urgency standings of the respective purchasers as hereinafter set forth.

(6) In preparing his schedules of deliveries for a given month for service purchasers, a producer shall fix the dates of his deliveries to the different groups so that each group will receive its percentage of tools equitably in point of time within the month.

(f) *Distribution of 25 per cent of machine tools among foreign and other purchasers.* Foreign purchasers and other purchasers shall be treated as one group, and each producer shall schedule his orders for each size of each type for delivery each month, within their aggregate 25 per cent of production for that month, in accordance with the sequence of deliveries determined as hereinafter specified in paragraph 1: *Provided, however,* That if the purchase orders from foreign purchasers and other purchasers with any producer with required delivery dates in any one month, aggregate more than 25 per cent of his production for any size of a given type during such month, such producer shall immediately file with the War Production Board a report stating the size and type of tool, showing all such purchase orders and designating for each order the required delivery date, the name of the purchaser, or the foreign country in the case of foreign purchasers, the purpose for which the tool is to be used in the case of other purchasers and the required delivery dates. The Director of Industry Operations, or such other official as may be specifically authorized by him, will thereupon examine such report and issue directions as to which purchase orders shall be eliminated in order to bring the aggregate within the 25 per cent allocation, or such other directions as he may deem necessary.

(g) *Treatment of fractions.* Where the number of tools which results from the use of a percentage to be applied under this Order contains a fraction of more than one-half, the fraction shall be counted as a whole tool. A fraction under one-half shall be disregarded, except that where the computation results in a fraction only (less than one whole tool) for any one month, and such fraction is less than one-half it shall be counted in computing the next month's quota. Where each of the computations of two or more different quotas for the same month shows a fraction of one-half, and there is only one remaining tool to which such fractions can apply, such tool shall be allotted to the group having the highest percentage quota, and the other fractions of one-half shall be disregarded for that month, but shall be counted in computing the other quota or quotas for the next month.

(h) *Necessity for preference ratings.* (1) Except in the case of purchase orders of foreign purchasers, no purchase order received after the effective date of this Order for any machine tool shall be given priority standing in production schedules, or shall be sold or delivered, unless a preference rating of A-10 or higher has been assigned thereto by a Preference Rating Certificate PD-1A, by a Preference Rating Certificate PD-3A, or by Preference Rating Order No. P-19-h. Delivery of the Preference Rating Certificate itself to the producer is not required, but each purchase order must contain the proper endorsement thereon prescribed by said Certificate PD-1A, PD-3A, or Preference Rating Order No. P-19-h. In addition, there must be included in this endorsement or set forth

on the purchase order in a separate endorsement, (i) the urgency standing of the purchaser, if any; (ii) the required delivery date of the tool; (iii) in the case of service purchasers, the Supply Arm or Bureau of the Army or Navy, or the Maritime Commission, which placed the prime contract, the number of the prime contract, and the name of the prime contractor; (iv) in the case of foreign purchasers, the foreign country for which the tool is purchased; (v) in the case of other purchasers, a statement as to the product or production program for which the tool is to be used.

If the endorsement on any purchase order of a service purchaser received after the effective date of this Order does not specify the urgency standing of such purchaser, and the name of such purchaser does not appear with an urgency standing on the list, hereinafter described, then such purchase order shall be treated as one without any urgency standing.

(2) In the case of preference ratings which have been received prior to the effective date of this Order, and where the Preference Rating Certificate filed with the producer or the endorsement upon the purchase order does not disclose the foregoing information, and the producer does not already know it, the producer shall require a written certification from the purchaser with respect thereto, in order to determine in which class and group of purchasers the purchaser belongs, his urgency standing (if any), and his required delivery date.

(i) *Operation of Numerical Master Preference List, Revision No. 3, and Preference Ratings.* (1) All purchase orders of foreign purchasers are hereby assigned a rating of A-1-a for the purposes of this General Preference Order E-1-b. The Numerical Master Preference List, Revision No. 3, ("Exhibit B")¹ attached to this Order, herein called "the List" shall determine the sequence of deliveries as between Service Purchasers as hereinafter set forth, but, shall have no effect upon foreign purchasers or other purchasers.

(2) Subject to subparagraph (1) of this paragraph, the sequence of deliveries of machine tools among each group of service purchasers within its respective percentage quota, and the sequence of deliveries among foreign purchasers and other purchasers within their 25 per cent allocation, shall be determined by required delivery dates, by preference ratings, and by the urgency standings contained in the List, as follows:

(i) Deliveries to service purchasers who are either on the List or are subcontractors of persons on the List, shall be preferred to and shall take precedence over deliveries to service purchasers who are not on the List, irrespective of the preference ratings of the service purchasers who are not on the List.

(ii) As between deliveries which have conflicting required delivery dates to be made to two or more service purchasers both on the List, deliveries shall be made according to their respective urgency

standings specified on such List, whether the preference ratings of such service purchasers are the same or are different. The highest urgency standing is No. 1.

(iii) As between deliveries which have conflicting required delivery dates and which bear different preference ratings, to be made to two or more purchasers neither of whom is on the List, deliveries shall be made according to the preference ratings of the respective purchasers.

(iv) As between deliveries which have conflicting required delivery dates and which bear the same preference rating, to be made to two or more purchasers neither of whom is on the List, the sequence of deliveries shall be determined by the dates on which the Producer received the applications of the preference ratings to the purchase orders for such deliveries and/or, in the case of foreign purchasers, the dates on which the purchase orders were accepted by the Producer.

(v) A delivery to a subcontractor who is not specifically named on the List shall take the urgency standing of his prime contractor; and the urgency standing of the prime contractor must be endorsed in writing on the subcontractor's Preference Rating Certificate, by an officer designated for such purpose by the Supply Arm or Bureau concerned.

(3) Where a producer cannot schedule delivery of a tool in the month required by a purchaser, because the percentage allocation or quota of such purchaser's class or group is entirely exhausted by scheduled deliveries of such tools to members of such class or group who have higher urgency standings or preference ratings, the producer shall schedule the tool for delivery in the earliest succeeding month during which it can be included in the percentage allocation or quota or such class or group in accordance with the purchaser's urgency standing or preference rating.

(j) *Additions to List.* Additions to, withdrawals from, and other changes may be made in the Numerical Master Preference List from time to time by the Director of Industry Operations or such other official as may be specifically authorized by him. Where it is desired to assign an urgency standing between existing urgency standings, the new urgency standing will consist of a number including a decimal. Such an urgency standing will take a position in the sequence of deliveries as indicated by the following example: Urgency Standing 792.1 will be scheduled after 792 and before 793.

(k) *Revision of scheduled deliveries.*

(1) On or before June 1, 1942, with respect to Machine Tools designated as Group I on Exhibit A, and on or before July 1, 1942, with respect to Machine Tools designated as Group II on Exhibit A, each producer shall revise his schedule of deliveries for each type of tool to conform to the percentage allocations and quotas of the various classes and groups of purchasers, and in accordance with the sequences determined by urgency standings and preference ratings, to the extent that he can do so without seriously

delaying his production line, and without postponing the date of completion of any particular tool which was 50 per cent or more completed on the effective date of this Order, beyond the earliest date when such tool can be 100 per cent completed.

(2) After the date specified in subparagraph (1) of this paragraph, the producer shall make deliveries of tools in accordance with his revised schedules.

(l) *Postponement of new purchase orders.* Unless the Director of Industry Operations specifically orders otherwise, and notwithstanding any other provisions of this Order, no higher preference rating or urgency standing shall operate to postpone or in any way affect any delivery under a purchase order already scheduled where such delivery, in the case of tools designated as Group I on Exhibit A is to be made within 30 days of receipt of such higher preference rating or urgency standing, or in the case of tools designated as Group II on Exhibit A, is to be made within 60 days of receipt of such higher preference rating or urgency standing.

(m) *Specific modifications of schedules.* Notwithstanding any other provisions of this Order, the Director of Industry Operations, or such other official as may be specifically authorized by him, may allocate to another purchaser, or otherwise divert, any machine tool scheduled for production and delivery pursuant to this Order. Except as expressly provided in this Order, no one other than the Director of Industry Operations or his duly authorized representative, may give directions respecting sequences of deliveries. No interpretations, instructions, or directions respecting any of the provisions of this Order shall be issued without the approval of the Director of Industry Operations or such other official as may be specifically authorized by him; and no producer shall accept or give effect to any interpretation, instruction, or direction, which is not issued in accordance with the foregoing provisions.

(n) *Violations.* Any person who willfully violates any provision of this Order, or who, in connection with this Order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(o) *Applicability of Priorities Regulation No. 1.* This Order, and all transactions affected thereby, are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(p) *Reports and other communications.* All reports which may be required to be filed, and all other communications concerning this Order, should be addressed to: War Production Board, Washington, D. C. Ref.: E-1-b.

¹ Not filed as part of the original document.

(q) *Effective date.* This Order shall take effect on the 1st day of May 1942, and shall continue in effect until revoked by the Director of Industry Operations.

Issued this 30th day of April 1942.

J. S. KNOWLSON,
Director of Industry Operations.

Chapter XI—Office of Price Administration

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

AMENDMENT NO. 7 TO REVISED TIRE RATION- ING REGULATIONS¹—TIRES AND TUBES, RETRADING AND RECAPPING OF TIRES, AND CAMELBACK

Sections 1315.151 (w), 1315.501 (d) (2) and (d) (4), 1315.502 (c) (2) and (c) (4), 1315.503 (c) (4), 1315.601, 1315.603, 1315.608 and 1315.610 are amended; §§ 1315.403 and 1315.404 are revoked and the substance thereof is incorporated into § 1315.402 which is amended; and one new § 1315.403 is added, as set forth below:

Definitions

§ 1315.151 Definitions.

(w) "Rubber" means all forms and types of rubber including synthetic and reclaimed rubber.

Tires and Tubes for Vehicles Eligible Under List A

§ 1315.402 *Eligibility of List A vehicles for new tires and tubes, retreaded or recapped tires.* (a) The Board may issue a certificate authorizing the transfer of a new tube, or a certificate authorizing the transfer of a retreaded or recapped tire, or the purchase of retreading or recapping services, to an applicant who satisfies the requirements of paragraphs (c) and (d) of this section.

(b) The Board may issue a certificate authorizing the transfer of a new tire to an applicant who satisfies the requirements of paragraphs (c) and (d) of this section if, but only if:

(1) The applicant establishes that the tire for which application is made is to replace a tire which is not capable of being retreaded or recapped or which cannot be retreaded or recapped for safe use at the speeds at which the applicant may reasonably be expected to operate.

(c) An applicant must establish that the tires for which application is made are to be mounted on a passenger automobile included in paragraphs (a) to (e), or a vehicle other than a passenger automobile included in paragraphs (c) to (h) of § 1315.405 (List A).

(d) An applicant must establish:

(1) That, if the vehicle to be equipped is a passenger automobile, it cannot be replaced by another passenger automobile owned or operated by, or subject to the control of the applicant, which is equipped with serviceable tires or tubes and which is capable of being, but is not, fully employed for one or more of the purposes specified in paragraphs (a) to (e) inclusive, of § 1315.405. If the vehicle to be equipped is a vehicle other than a passenger automobile, the applicant must establish that it cannot be replaced by another vehicle owned or operated by, or subject to the control of the applicant, which is equipped with serviceable tires or tubes and which is capable of being, but is not, fully employed for one or more of the purposes specified in paragraphs (c) to (h) inclusive, of § 1315.405.

(2) That the tire or tube for which application is made is to replace a tire or tube used by the applicant and that such tire is not serviceable or must be recapped or retreaded without delay or that such tube cannot be repaired. On and after June 1, 1942, a Board may not issue a certificate for a tire to an applicant who seeks to replace a tire carcass which cannot be retreaded unless the applicant can establish to the satisfaction of the Board that the carcass which he seeks to replace became unusable from circumstances not resulting from the applicant's abuse or neglect.

(i) Except where the applicant applies for a spare tire, certificates may be granted only for replacement purposes and not to provide original equipment for any new vehicle.

(ii) If the applicant has tires or tubes in his possession at the time of his application, and the tires are still serviceable, and do not require immediate retreading or recapping, or the tubes can be

repaired, he fails to establish that he needs tires or tubes at the time he makes application, and he must be denied a certificate. On and after June 1, 1942 a Board may not issue a certificate for a tire to an applicant who seeks to replace a tire carcass which cannot be retreaded unless the applicant can establish to the satisfaction of the Board that the carcass which he seeks to replace became unusable from circumstances not resulting from the applicant's abuse or neglect. Granting or denial of a certificate under these conditions will be at the discretion of the Board with regard to the loss which the community will suffer if the applicant is denied tires. Where the community would suffer no serious loss if the applicant were denied tires, because other persons can provide the same service, or for other reasons, the Board may refuse to grant tires to replace such damaged tires.

(3) That the tire or tube for which application is made, when added to all other tires or tubes of suitable sizes in the applicant's possession, whatever their condition, and whether unmounted or mounted on a vehicle, will not add up to more than one spare tire of a given size for each vehicle eligible under paragraphs (a) to (h) of § 1315.405: *Provided*, That if the applicant is regularly engaged in dealing in tires, the requirements of this paragraph can be satisfied by showing that all his tires or tubes already in use are, if of suitable size, in use on vehicles included in paragraphs (a) to (h) and no such vehicle is equipped with more than one spare of a given size.

(i) If the applicant is not in the tire business, he cannot be granted a certificate if granting such a certificate would result in his having more tires or tubes than are necessary for the operation of vehicles included in paragraphs (a) to (h) of § 1315.405. Therefore, if the applicant already has enough serviceable tires or tubes of a size suitable to equip each of the vehicles he owns or controls eligible under those paragraphs, he must use such tires or tubes on such vehicles, even if that means taking the tires or tubes off vehicles not included in those paragraphs. If the applicant has unusable tires or tubes, he must dispose of them, so that they will be available as rubber scrap. Unless and until the applicant takes all these steps, no certificate can be issued to him.

(ii) If the applicant is in the tire business, since his inventories of tires cannot be used by him without a certificate, as provided in § 1315.801 (b) (1), he may satisfy the requirements of this paragraph (c) (3) by showing that all of his tires already in use are, if of a size suitable for use on the vehicle to be equipped, in use on vehicles included in paragraphs (a) to (h) of § 1315.405.

(4) If the applicant desires authority to purchase a passenger type new tire of over four-ply construction, that the vehicle upon which the new tire is to be mounted cannot be satisfactorily operated in the use to which it is to be put with a tire of four-ply construction.

(5) That the applicant agrees to trade in any tire or tube in his possession replaced by the tire or tube purchased with any certificate granted him, or, if the ap-

¹ 7 F.R. 1027, 1089 2106, 2107, 2541, 2633.

plicant purchases a tire or tube from a mail order house, that the applicant will, within five days from receipt of such tire or tube, sell the replaced tire or tube to a person dealing in tires.

(i) Tires or tubes replaced must be transferred to the person from whom new tires or tubes, retreaded or recapped tires are purchased, or in the case of purchase from a mail order house, to any person dealing in tires.

(ii) If the applicant has tires or tubes in his possession at the time of his application, and the tires are still serviceable and do not require immediate retreading or recapping, or the tubes can be repaired, he fails to establish that he needs tires or tubes at the time he makes application, and he must be denied a certificate.

§ 1315.403 *Eligibility of retreaders and recappers for tubes.* (a) Any person who owns, operates or controls a retreading or recapping mold may file with the Board having jurisdiction over the area in which such mold is located, an application for authority to purchase new tubes for use solely in retreading or recapping. Such application shall be filed on OPA Form No. R-1, except that the applicant need not fill in items 6 to 14 inclusive, on such form. The applicant shall, in addition, file with his application a supplementary statement under oath, setting forth the following information:

(1) Location of the establishment in which the retreading or recapping molds are installed.

(2) Relationship of applicant to such establishment, e. g. Owner, owner's agent, partner, president, etc.

(3) Number and sizes of molds owned, operated or controlled by applicant.

(4) That the applicant does not have more than one serviceable air bag or tube of the required size for each mold owned, operated or controlled by him, and that the tube applied for is necessary to the operation of the mold.

(5) That the applicant will trade in the air bag or tube to be replaced on a new tube purchased with the certificate for which application is made.

(6) That the applicant intends to and will use the new tube purchased with the certificate solely for retreading or recapping.

(b) The certificates issued under this section shall be charged against the Board's quota for tubes. No Board shall issue certificates authorizing the purchase in any one calendar month of more than two tubes for each mold in its jurisdiction.

(c) OPA Form No. R-2 shall be the certificate used in authorizing the purchase of tubes by retreaders or recappers. When issuing the certificate the Board shall cause to be written across the face of each part of such certificate the words "For tubes to be used solely in retreading or recapping," which shall be initialed by the members of the Board who sign the certificate.

(d) * * *

(2) That the tire for which application is made is to replace a tire used by the applicant and that such tire is not serviceable or must be recapped or retreaded without delay. On and after June 1, 1942 a Board may not issue a certificate for a tire to an applicant who seeks to replace a tire carcass which cannot be recapped, unless the applicant can establish to the satisfaction of the Board that the carcass which he seeks to replace became unusable from circumstances not resulting from the applicant's abuse or neglect.

(i) Except when the applicant applies for a spare tire, certificates may be granted only for replacement purposes and not to provide original equipment for any vehicle.

(ii) If the applicant has tires in his possession at the time of application and such tires are still serviceable and do not require immediate retreading or recapping, he fails to establish that he needs tires at the time he makes application, and he must be denied a certificate.

(iii) On and after June 1, 1942 a Board may not issue a certificate for a tire to an applicant who seeks to replace a tire carcass which cannot be retreaded, unless the applicant can establish to the satisfaction of the Board that the carcass which he seeks to replace became unusable from circumstances not resulting from the applicant's abuse or neglect. Granting or denial of a certificate under these conditions will be at the discretion of the Board with regard to the loss which the community will suffer if the applicant is denied tires. Where the community would suffer no serious loss if the applicant were denied tires, because other persons can provide the same services, or for other reasons the Board may refuse to grant tires to replace such damaged tires.

(4) That the applicant agrees to trade in any tires replaced in accordance with the provisions of § 1315.402 (d) (5).

§ 1315.502 *Eligibility of List B trucks for retreaded or recapped tires.*

(c) * * *

(2) That the tire for which application is made is to replace a tire used by the applicant and that such tire is not serviceable or must be recapped or retreaded without delay. On and after June 1, 1942 a Board may not issue a certificate for a tire to an applicant who seeks to replace a tire carcass which cannot be recapped, unless the applicant can establish to the satisfaction of the Board that the carcass which he seeks

to replace became unusable from circumstances not resulting from the applicant's abuse or neglect.

(i) Except when the applicant applies for a spare tire, certificates may be granted only for replacement purposes and not to provide original equipment for any vehicle.

(ii) If the applicant has tires in his possession at the time of application and such tires are still serviceable and do not require immediate retreading or recapping, he fails to establish that he needs tires at the time he makes application, and he must be denied a certificate.

(iii) On and after June 1, 1942 a Board may not issue a certificate for a tire to an applicant who seeks to replace a tire carcass which cannot be retreaded, unless the applicant can establish to the satisfaction of the Board that the carcass which he seeks to replace became unusable from circumstances not resulting from the applicant's abuse or neglect. Granting or denial of a certificate under these conditions will be at the discretion of the Board with regard to the loss which the community will suffer if the applicant is denied tires. Where the community would suffer no serious loss if the applicant were denied tires, because other persons can provide the same services, or for other reasons the Board may refuse to grant tires to replace such damaged tires.

(4) That the applicant agrees to trade in any tires replaced in accordance with the provisions of § 1315.402 (d) (5).

PART 1340—FUEL

MAXIMUM PRICE REGULATION NO. 121—MISCELLANEOUS SOLID FUELS DELIVERED FROM PRODUCING FACILITIES

In the judgment of the Price Administrator the prices of miscellaneous solid fuels are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has given due consideration to the prices of miscellaneous solid fuels prevailing between October 1 and October 15, 1941 and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of considerations involved in the issuance of this Regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,¹ issued by the Office of Price Administration, Maximum Price Regulation No. 121 is hereby issued.

§ 1340.248 *Definitions.* (a) When used in this Maximum Price Regulation No. 121, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political sub-divisions, or any agency of any of the foregoing.

(2) "Miscellaneous solid fuels" or "miscellaneous solid fuel" means anthracite other than that produced in the State

of Pennsylvania; semi-anthracite; lignite; all coke, including low temperature coke and petroleum coke (except by-product, foundry and blast furnace coke, and beehive oven furnace coke produced in the State of Pennsylvania); briquettes made from coke and coal; and sea coal used for foundry facings.

(3) "Producer" means (i) a person engaged in the business of mining miscellaneous solid fuel or preparing miscellaneous solid fuel at a preparation plant operated as an adjunct of a mine or mines, and (ii) a person engaged in the business of manufacturing coke or briquettes, (iii) any person acting as an agent of such a producer in the sale of miscellaneous solid fuel.

(4) "Distributor" means a person who purchases miscellaneous solid fuel at or for delivery from a mine or preparation plant operated as an adjunct of a mine or mines, or a coke oven or briquette plant, for resale, and resells the same in not less than cargo or railroad carload lots, without physically handling such miscellaneous solid fuel, and any person acting as an agent of such distributor in the sale of miscellaneous solid fuel.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1340.249 *Appendix A: Maximum prices for miscellaneous solid fuels delivered from producing facilities.* The maximum prices established in this Maximum Price Regulation No. 121 are applicable to solid fuel delivered at destinations in the continental United States, the District of Columbia, the territories of Alaska and Hawaii, the Dominion of Canada and Newfoundland.

(a) The maximum price for the sale of miscellaneous solid fuel by a producer or distributor thereof shall be the price specified in the last price circular, list or schedule issued by such person on or before December 31, 1941, and in effect during any portion of the period December 15-31, inclusive, 1941. (5) Under the same terms of delivery (e. g. delivered to the purchaser or f. o. b. transportation facilities at the mine, preparation plant, coke oven or briquette plant, etc.).

(b) If the maximum price cannot be determined under paragraph (a) of this section, the maximum price for the sale of miscellaneous solid fuel by a producer or distributor thereof shall be the "average price" charged by the same person during the period December 15-31, inclusive, 1941. This "average price" shall be determined by dividing into the aggregate of the prices charged by such person during December 15-31, inclusive,

1941 (before the deduction of any allowances or discounts or the addition of any special service charges), the aggregate of the tonnage sold by such person during December 15-31, inclusive, 1941, on sales of:

(2) In similar quantities;

(3) To purchasers of the same general class (e. g. domestic, commercial, industrial);

(e) *Cash discounts, credit terms and special services.* (1) There shall be deducted from the maximum prices established in paragraphs (a), (b) and (c) of this section the cash and quantity discounts and other allowances (other than freight rate absorptions) which the same producer or distributor actually made, or made available to, purchasers during the period December 15-31, inclusive, 1941.

PART 1340—FUEL

MAXIMUM PRICE REGULATION NO. 122—SOLID FUELS DELIVERED FROM FACILITIES OTHER THAN PRODUCING FACILITIES—DEALERS

In the judgment of the Price Administrator, the prices of solid fuels delivered from facilities other than producing facilities are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices prevailing on sales of such solid fuels between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator, the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of considerations involved in the issuance of this Regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,¹ issued by the Office of Price Administration, Maximum Price Regulation No. 122 is hereby issued.

§ 1340.251 *Maximum prices for sales of solid fuels delivered from facilities other than producing facilities.* On and after May 18, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or dispose of solid fuel, in any quantity, at or for delivery from a yard, dock, elevator or other terminal facilities (other than a mine or preparation plant operated as an adjunct of a mine or mines, or a coke oven or briquette plant), and no person shall sell or dispose of solid fuel, in any quantity, from a truck or wagon, at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1340.261; and no person shall, in the course of trade or business, buy or receive solid fuel so sold or disposed of, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1340.261; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Pro-*

vided, That the provisions of this Maximum Price Regulation No. 122 shall not apply to solid fuel delivered to the purchaser from a mine, preparation plant, coke oven or briquette plant in a truck or wagon by the producer of the solid fuel or by a distributor thereof.

The provisions of this Maximum Price Regulation No. 122 shall not be applicable to sales or deliveries of solid fuel to a purchaser if prior to May 18, 1942 such solid fuel had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

AUTHORITY: §§ 1340.251 to 1340.262, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1340.252 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1340.261) may be charged, demanded, paid or offered: *Provided,* That nothing contained in this Maximum Price Regulation No. 122 shall be deemed to authorize members of the Bituminous Coal Code (as established pursuant to the Bituminous Coal Act of 1937) or distributors of bituminous coal who are subject to the jurisdiction of the Bituminous Coal Division of the United States Department of the Interior to make sales or deliveries at prices lower than the effective minimum prices established from time to time by the Bituminous Coal Division of the United States Department of the Interior.

§ 1340.253 *Adjustable pricing.* No person subject to the provisions of this Maximum Price Regulation No. 122 shall enter into any agreement permitting the adjustment of the maximum prices provided in this Maximum Price Regulation No. 122 to prices which may be higher than such maximum prices, except that nothing contained in this Maximum Price Regulation No. 122 shall prohibit the making of a contract to sell at a price not exceeding the maximum price in effect at the time of delivery. In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1340.254 *Evadon.* (a) The price limitations set forth in this Maximum Price Regulation No. 122 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to solid fuels, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) The price limitations set forth in this Maximum Price Regulation No. 122 shall not be evaded by any deterioration in the quality of solid fuels, by substitution of a lower quality solid fuel for a higher quality solid fuel or otherwise.

§ 1340.255 *Records and reports.* (a) Every person subject to this Maximum Price Regulation No. 122 shall keep for inspection by the Office of Price Administration for a period of not less than two years complete and accurate records of every sale and every purchase of solid fuel made by him on and after May 18, 1942, showing the date thereof, the name and address of the buyer and the seller, the kind, size, quality, brand or trade name and quantity of the solid fuel sold or purchased, together with, in the case of bituminous coal, the name and mine index number of the mine at which it originated, if known; the method of transportation employed in the delivery thereof; and the price received or paid therefor.

(b) Not later than June 15, 1942, except where additional time may be granted by the Office of Price Administration in individual cases, every person subject to this Maximum Price Regulation No. 122 shall file with the Office of Price Administration in Washington, D. C., a statement setting forth:

(2) All price circulars, lists or schedules issued by such person on or before December 31, 1941 and in effect during the period December 15-31, inclusive, 1941;

(3) Any "average price," used to determine any maximum price of such person, as provided in § 1340.261 (c) of this Maximum Price Regulation No. 122;

(4) The rate of interest, if any, charged on delinquent accounts or on any note, trade acceptance or other evidence of indebtedness accepted in payment of an account during the period December 15-31, inclusive, 1941;

(5) The charges, if any, made for any special services during the period December 15-31, inclusive, 1941, together with a description of the special service rendered; and

(6) The cash and quantity discounts and other allowances (except freight rate absorptions) made or available to purchasers during the period December 15-31, inclusive, 1941.

(c) Persons affected by this Maximum Price Regulation No. 122 shall submit such other reports to the Office of Price Administration and keep such other records as it may from time to time require.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1340.259 *Other regulations.* Nothing contained in this Maximum Price Regulation No. 122 shall be construed to excuse any violation of any provision of the Bituminous Coal Act of 1937 or of any schedules, regulations, rules or orders now or hereafter made effective by the Bituminous Coal Division of the United States Department of the Interior, on the part of any person subject to the jurisdiction of that agency.

§ 1340.260 *Effective date.* (a) This Maximum Price Regulation No. 122 (§§ 1340.251 to 1340.262, inclusive) shall become effective May 18, 1942.

§ 1340.261 *Appendix A: Maximum prices for solid fuels delivered from facilities other than producing facilities.* This Maximum Price Regulation No. 122 establishes maximum prices for all solid fuel sold or otherwise disposed of, in any quantity, at or for delivery from a yard, dock, elevator or other terminal facilities (other than a mine or preparation plant operated as an adjunct of a mine or mines, or a coke oven or briquette plant), and all solid fuel sold or otherwise disposed of, in any quantity, from a truck or wagon, except solid fuel delivered to the purchaser from a mine, preparation plant, coke oven or briquette plant in a truck or wagon by the producer of the solid fuel or by a distributor thereof.

The maximum prices established in this Maximum Price Regulation No. 122 are applicable to solid fuel delivered at destinations in the continental United States, the territories of Alaska and Hawaii, the District of Columbia, the Dominion of Canada and Newfoundland.

(a) The maximum price for the sale of solid fuel by a person subject to this Maximum Price Regulation No. 122 shall be the highest price advertised by the same person between October 1 and December 31, inclusive, 1941, in a newspaper or other advertising medium of general circulation in the same locality, and in effect during any portion of the period December 15-31, inclusive, 1941. This shall be a price advertised for the sale of:

(1) The same size, kind and quality of solid fuel;

(2) In quantities taking the same price per ton;

(3) To purchasers of the same class (e. g. domestic, commercial industrial);

(4) By the same method of delivery (e. g. truck, rail, etc.); and

(5) Under the same terms of delivery (e. g. delivered to the purchaser or f. o. b. transportation facilities at the seller's yard, dock or terminal facilities, etc.).

(b) If the maximum price cannot be determined under paragraph (a) of this section, the maximum price for the sale of solid fuel by a person subject to this Maximum Price Regulation No. 122 shall be the price specified in the last price circular, list or schedule issued by the same person on or before December 31, 1941 and in effect during any portion of the period December 15-31, inclusive, 1941. This shall be the price so specified for the sale of:

(c) If the maximum price cannot be determined under paragraphs (a) or (b) of this section, the maximum price for the sale of solid fuel by a person subject to this Maximum Price Regulation No. 122 shall be the "average price" charged by the same person during the period December 15-31, inclusive, 1941. This "average price" shall be determined by dividing into the aggregate of the prices charged by such person during December 15-31, inclusive, 1941 (before the deduction of any allowances or discounts or the addition of any special service charges) the aggregate of the tonnage sold by such person during December 15-31, inclusive, 1941, on sales of:

(1) The same size, kind and quality of solid fuel;

(2) In similar quantities;

(3) To purchasers of the same class (e. g., domestic, commercial, industrial);

(d) If the maximum price cannot be determined under paragraphs (a), (b) or (c) of this section, the maximum price for the sale of solid fuel by a person subject to this Maximum Price Regulation No. 122 shall be the price of any person carrying on a business of the same character (wholesale or retail) in the same locality, either as specified in any advertisement inserted between October 1 and December 31, inclusive, 1941 in a newspaper or other advertising medium of general circulation in the same locality and in effect during any portion of the period December 15-31, inclusive, 1941, or as specified in any price circular, list or schedule issued on or before December 31, 1941 and in effect during any portion of the period December 15-31, inclusive, 1941. This shall be the price so specified for the sale of:

(1) The same size, kind and quality of solid fuel;

(2) In quantities taking the same price per ton;

(3) To purchasers of the same general class (e. g., domestic, commercial, industrial);

(4) By the same method of delivery (e. g., truck, rail, etc.); and

(5) Under the same terms of delivery (e. g., delivered to the purchaser or f. o. b. transportation facilities at the seller's yard, dock or terminal facilities, etc.).

(e) There may be added to the maximum prices established in paragraphs (a), (b), (c) and (d) of this section not more than the exact amount per net ton of any railroad freight rate increase actually incurred as a result of the order of the Interstate Commerce Commission of March 18, 1942 in Interstate Commerce Commission Docket *Ex Parte* 148.

(f) *Cash discounts, credit terms and special services.* (1) There shall be deducted from the maximum prices established in paragraphs (a), (b), (c) and (d) of this section the cash and quantity discounts and other allowances (except freight rate absorptions) made or available to purchasers during the period December 15-31, inclusive, 1941.

(2) The rate of interest on overdue accounts or on a note, trade acceptance or other form of indebtedness accepted in payment of an account shall not exceed the rate charged by the seller on similar transactions during any portion of the period December 15-31, inclusive, 1941: *Provided*, That any person subject to the jurisdiction of the Bituminous Coal Division of the United States Department of the Interior may apply the rate of interest required to be charged on delinquent accounts pursuant to the orders of that agency.

(3) The charges made for any special service shall not exceed the charges made for the same service during the period December 15-31, inclusive, 1941.

(g) *Federal and state taxes.* Any tax upon the sale of a solid fuel, and any compensating use tax upon a solid fuel, levied by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the maximum price for such a solid fuel and in preparing the records to be kept with respect thereto:

(1) As to a tax in effect during December 15-31, inclusive, 1941:

(i) If such tax was customarily stated and collected separately from the purchase price during December 15-31, inclusive, 1941, it shall not be included in determining the maximum price under this Maximum Price Regulation No. 122, and in such case may be collected in addition to the maximum price.

(ii) If such tax was not customarily stated and collected separately from the purchase price during December 15-31, inclusive, 1941, it shall be included in determining the maximum price under

this Maximum Price Regulation No. 122, and in such case may not be collected in addition to the maximum price.

(2) As to a tax which was made effective after December 31, 1942:

(i) If the statute or ordinance levying such tax requires or permits the tax to be stated and collected separately from the price paid by the purchaser, and it is separately stated, it may be collected in addition to the maximum price.

(h) *Tidewater shipping emergency.* Any person subject to this Maximum Price Regulation No. 122 who considers that his maximum prices are such as to subject him to substantial hardships on and after May 18, 1942, because they do not take into account changes in transportation costs occasioned by wartime exigencies affecting tidewater shipments after December 31, 1941, should immediately communicate full and detailed particulars concerning such changes in transportation costs, in writing, to the Office of Price Administration, Washington, D. C., so that the Price Administrator may take or sponsor appropriate action.

(j) *Posting of maximum prices; sales slips and receipts.* (1) On and after May 18, 1942 every person subject to this Maximum Price Regulation No. 122 shall post the maximum price per ton of all solid fuels offered for sale by such person, at the place in the business establishment where such solid fuels are offered for sale. The maximum price shall be stated as follows: "Ceiling price \$ ----," or "Our Ceiling \$ ----."

(2) On and after May 18, 1942 any person subject to this Maximum Price Regulation No. 122 who has customarily given a purchaser a sales slip or receipt, or similar evidence of purchase, shall continue to do so. Such right to wear or use official articles shall be subject at all times to the terms and conditions of any such rules, regulations, orders or instructions.

(d) Any member or trainee authorized to wear or use official articles may wear or use only official articles bearing the insignia prescribed by the Director for the particular Office of which such person is a member of the Staff Corps or for the unit of the Defense Corps of which such person is a member or trainee.

The decision of such Local Defense Council as to an alien not of enemy nationality, and of such State Defense Council as to an alien of enemy nationality, shall be final and shall be based upon its determination as to whether a declaration of eligibility or ineligibility would best serve the interests of the United States after considering all the facts bearing on the loyalty of any such alien to the United States; such decision shall be reached after such hearings as the Defense Council shall deem proper before a Board of Inquiry designated by the Defense Council or established by it to make findings of fact and recommendations to the Defense Council. The term "alien of enemy nationality", as used in this paragraph, means a citizen of Germany, Italy or Japan, or such other country as shall be designated by order of the Director.

COASTWISE LAWS WAIVED TO EXTENT NECESSARY TO PERMIT TRANSPORTATION OF CIVILIANS ENGAGED IN CONSTRUCTION OF ACCESS ROADS IN ALASKA AND EQUIPMENT, MATERIALS AND SUPPLIES OF CONTRACTORS ENGAGED IN CONSTRUCTION OF THOSE ROADS, FROM POINTS IN CONTINENTAL UNITED STATES TO POINTS IN ALASKA

The words "the continental United States to points in" were omitted from the first paragraph of the original document and did not appear on page 3127 of the issue for Wednesday, April 29, 1942. The paragraph should read as follows:

Upon the recommendation of the Acting Administrator of the Federal Works Agency and pursuant to the authority vested in me by the provisions of section 501 of the Second War Powers Act, 1942 (Public Law 507, 77th Congress), I hereby waive compliance with the provisions of section 8 of the Act of June 19, 1886, as amended (46 U.S.C. 289), and section 27 of the Merchant Marine Act, 1920, as amended (46 U.S.C. 883), to the extent necessary to permit the transportation on Canadian vessels from points in the continental United States to points in Alaska of the following:

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 3—RULES GOVERNING STANDARD AND HIGH-FREQUENCY BROADCAST STATIONS

MEMORANDUM OPINION IN THE MATTER OF POLICY AND PROCEDURE FOR THE HANDLING OF BROADCAST APPLICATIONS EXCLUSIVE OF INTERNATIONAL, ST, DEVELOPMENTAL, HIGH FREQUENCY EXPERIMENTAL AND NON-COMMERCIAL EDUCATIONAL

Since the adoption of the Commission's Memorandum Opinion of February 23, 1942, concerning policy and procedure for the handling of standard broadcast applications, it has become increasingly apparent that further restrictions upon the use of materials and skilled personnel for the construction and operation of radio broadcast stations are necessary. Public interest demands that the requirements of the armed services be met before materials and skilled personnel can be used for the expansion of existing or the construction of new broadcast services.

On April 16, 1942, the Defense Communications Board recommended to the War Production Board and this Commission that there be immediately placed in effect the following policy:

No future authorizations involving the use of any materials shall be issued by the Federal Communications Commission nor shall further materials be allocated

by the War Production Board, to construct or to change the transmitting facilities of any Standard, Television, Facsimile, Relay or High Frequency (FM, Non-Commercial Educational, Experimental) broadcast station.

Upon consideration of this recommendation, the Commission has adopted a policy to grant no application for an authorization involving the use of any materials to construct or change the transmitting facilities of any standard, television, facsimile, relay, or high frequency (FM) broadcast station. The Commission, however, has deferred action on the recommendation of the Defense Communications Board with respect to experimental high frequency and non-commercial educational broadcast stations.

Applications filed to meet the requirements of authorizations heretofore made in the form of conditional grants, and applications requesting an extension of time within which to complete construction under authorizations heretofore made, will not be granted, unless it appears that the applicant (1) has made substantial expenditures in connection therewith or actually commenced construction prior to the date hereof, and (2) has on hand or available substantially all materials and equipment necessary to complete construction.

This policy shall not preclude the issuance of authorizations involving essential repairs or replacements for the purpose of maintaining existing services; nor shall it preclude the issuance of authorizations by the Commission for construction of, or changes in, facilities required by the Commission or recommended by the head of a war agency of the Federal Government.

For the purpose of carrying this policy into effect, the following procedure will govern applications now pending: Every applicant who desires to prosecute a pending application involving the use of materials to construct or change the transmitting facilities of any standard, television, facsimile, relay or high frequency (FM) broadcast station,¹ shall, on or before June 1, 1942, file with the Commission a formal petition embodying a statement of such facts and circumstances as he believes would warrant the granting of his application in the public interest. The filing of such petition will be construed as an indication of the desire of the applicant to prosecute his application, and, in the event the petition is denied, the application will be designated for hearing. Failure of any such applicant to file such formal petition on or before June 1, 1942, or such further time as the Commission may, upon satisfactory showing allow, will be deemed an abandonment of the applica-

tion, and such application will be retired to the closed files of the Commission and dismissed without prejudice.

Dated: April 27, 1942.

PART 3—RULES GOVERNING STANDARD AND HIGH-FREQUENCY BROADCAST STATIONS

MINIMUM OPERATING SCHEDULE REDUCED

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of April, 1942;

It appearing that the demand by the military services has decreased the supply of trained personnel available for operation of broadcast stations, and

It appearing further that there is a scarcity of materials required for the maintenance of broadcast stations and that the relaxation of § 3.71 of the Rules and Regulations with respect to minimum operating schedule for broadcast stations will serve the public interest,

Now, therefore, it is ordered, That until further order of the Commission, the provision of § 3.71 of the Rules and Regulations requiring the licensee of each standard broadcast station, except Sundays, to maintain a minimum operating schedule of two-thirds of the total hours that it is authorized to operate between 6 a. m. and 6 p. m., local standard time, and two-thirds of the total hours it is authorized to operate between 6 p. m. and midnight, local standard time, *be, and it is hereby, waived*, and in lieu thereof, except Sundays, the minimum operating schedule for standard broadcast stations shall be two-thirds of the total hours it is authorized to operate between 6 a. m. and midnight, local standard time: *Provided, however*, That § 3.71 of the Commission's Rules and Regulations governing Standard Broadcast Stations shall remain in full force and effect except as waived in this order.

DEPARTMENT OF LABOR.

Wage and Hour Division.

OPEN-CUT MINING OF PLACER GOLD

APPLICATION FOR MODIFICATION OF THE EXEMPTION THAT HAS BEEN GRANTED FROM THE MAXIMUM HOURS PROVISIONS OF THE FAIR LABOR STANDARDS ACT OF 1938 AS AN INDUSTRY OF A SEASONAL NATURE

Whereas after a hearing was held in Washington, D. C., June 19 and 20, 1939, before Mr. Harold Stein, a duly authorized representative of the Administrator of the Wage and Hour Division, the said Harold Stein duly issued findings and determination, in which he found that the open-cut mining of placer gold in the States of Idaho, Montana, Nevada, Oregon, South Dakota, Utah, Washington, Wyoming and the Territory of Alaska is a branch of an industry of a seasonal nature, within the meaning of section 7 (b) (3) of the Fair Labor Standards Act

of 1938, and Part 526, as amended, of the regulations issued thereunder; and

Whereas no petition for review of such findings and determination had been filed with the Administrator within the fifteen days allowed under the said regulations, the exemption for the open-cut mining of placer gold in the States of Idaho, Montana, Nevada, Oregon, South Dakota, Utah, Washington, Wyoming, and the Territory of Alaska, was made effective by the Administrator on January 3, 1940 (5 F.R. 24), pursuant to § 526.7 of the regulations; and

Whereas pursuant to § 526.5 (c) of the regulations, the Administrator determined on April 2, 1940, (5 F.R. 1284) that a prima facie case had been shown for extending the section 7 (b) (3) exemption to the open-cut mining of placer gold in the State of Colorado as part of the branch of the open-cut placer gold mining industry that had been found to be of a seasonal nature; and

Whereas no objection or request for hearing was received within the fifteen days allowed under the said regulations, the Administrator on April 30, 1940, (5 F.R. 1602) found on the prima facie case, pursuant to § 526.5 (b) (ii) of the regulations, that the open-cut mining of placer gold in the State of Colorado is part of the branch of the open-cut placer gold mining industry that had been found to be of a seasonal nature, pursuant to section 7 (b) (3) of the Act, and Part 526 of the regulations issued thereunder; and

Whereas applications were thereafter received from the International Union of Operating Engineers, Local No. 373, Butte, Montana; the International Brotherhood of Teamsters, Chauffeurs, Stablemen and Helpers of America, Local No. 412 and Joint Council No. 23, Butte, Montana; and the Helena, Montana Building and Construction Trades Council, to exclude the open-cut mining of placer gold by means of power machinery from the exemption that had previously been granted; and

Whereas the Administrator then gave notice of a public hearing to be held in Butte, Montana, on May 21, 1941, before Mr. Harold Stein, who was authorized to take testimony, hear argument, and determine;

Whether the mining of placer gold from surface or open-cuts by means of bucket dredges, draglines, and other methods employing power machinery in the States of Colorado, Idaho, Montana, Nevada, Oregon, South Dakota, Utah, Washington, Wyoming, and the Territory of Alaska:

(1) Was properly included within the seasonal exemption granted to the placer gold mining industry in the above-defined area, and

(2) If not, whether it is a separable branch of the placer gold mining industry and of a seasonal nature within the meaning of Part 526 of the regulations; and

Whereas following such hearing the said Harold Stein duly made his findings of fact and determined as follows:

1. There exist separable branches of the placer gold mining industry which

are identified by the various methods used to excavate and move the gravel.

2. Placer gold mines employing power machinery to mechanically excavate and move the gravel, within the Territory of Alaska, generally cease operations completely during regularly recurring times of the year for periods of six months or more, because, due to climatic or other natural conditions, the gravels handled by the industry are not available in the form in which they are normally handled.

3. The open-cut mining of placer gold by means of power machinery in the Territory of Alaska is a branch of an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act and Part 526, as amended, of the regulations issued thereunder, and was properly included in the exemption granted on January 3, 1940.

4. About ninety percent of all the placer gold produced by open-cut placer gold mines employing power machinery to excavate and move the gravel within the States of Colorado, Idaho, Montana, Nevada, Oregon, South Dakota, Utah, Washington, and Wyoming, is produced by those placer mines which, through the use of power machinery, are able to overcome climatic and other natural conditions. These mines, employing power methods, generally operate in excess of six months during each calendar year and maintain an operating season which has no reasonable relation to the fourteen week exemption provided in section 7 (b) (3) of the Fair Labor Standards Act.

5. The open-cut mining of placer gold by means of power machinery within the States of Colorado, Idaho, Montana, Nevada, Oregon, South Dakota, Utah, Washington and Wyoming is a branch of an industry, but is not of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act and Part 526, as amended, of the regulations issued thereunder, and should not have been included in the seasonal exemption granted to the open-cut mining of placer gold in the above-mentioned states.

Whereas said findings and determination were duly filed with the Administrator on December 8, 1941, and are now on file in Room 1620, Wage and Hour Division, Department of Labor, 165 West 46th Street, New York, New York, and are available for examination by all interested parties; and

Whereas on December 30, 1941, the Administrator caused to be published in the FEDERAL REGISTER a notice which stated that, pursuant to the provisions of § 526.7 of the aforesaid regulations, any person aggrieved by the said determination might within fifteen days after December 30, 1941, file a petition with the Administrator requesting that he review the action of the said representative upon the record of hearing before the said representative; and

Whereas no petition for review has been filed within the said fifteen days;

Now, therefore, pursuant to the provisions of § 526.7 of the said regulations, the modification of the seasonal exemption for the open-cut mining of placer

gold will become effective on the date this notice appears in the FEDERAL REGISTER. The said seasonal exemption, provided by section 7 (b) (3) of the Fair Labor Standards Act of 1938, is applicable only as specified by the determinations that became effective on January 3, 1940, and on April 30, 1940, and as modified by the aforesaid determination that will become effective upon the publication of this notice in the FEDERAL REGISTER.

Signed at New York, New York, this 28th day of April 1942.

Administrator.

Whereas the Federal Committee on Apprenticeship on April 13, 1942, advised us that they have approved the amendments to the Diamond Workers Joint Apprenticeship Standards adopted by the United Diamond Manufacturers Association of New York and the Diamond Workers Protective Union of America on April 10, 1942, and

Whereas the wage scales provided in the original Standards approved by the Federal Committee on Apprenticeship on July 9, 1940, are superseded by the higher wage scales provided in the amended Standards, effective May 1, 1942, and

Whereas apprentice certificates have been issued pursuant to section 14 of the Fair Labor Standards Act, incorporating the wage scales provided in the original Standards as approved July 9, 1940,

Now, therefore, Notice is hereby given:
